

## IS QUIET IN ANOTHER OF TURMOIL

Excitement Over the  
ing of M. Calmette  
the Rochette Scan-  
dal Subsiding.

POSTED TO  
REVENT DISORDER

Caillaux a Heroine in  
es of the Populace,  
Is Referred to as a  
ctim of Her Love.

March 18.—The first wave of  
the shooting of M. Calmette  
Caillaux and the sensational de-  
chamber of deputies on the  
ing out of the postponement  
of Henri Rochette, charged  
are subsiding. The dampened  
of the royalists and others  
been holding demonstrations  
the city. Tonight Paris is  
ly quiet.

Topic of conversation in the  
cafes is the proposed investiga-  
Rochette affair by a commit-  
tee, which will begin Fri-  
day.

The Socialist leader, who will  
be the committee, makes no sen-  
timents to leave no stone  
unturned to get at the full truth.

He is a judge of bronze with a  
steel.

Summons.

Witnesses to be examined will  
Mons, minister of marine; M.  
ex-minister of finance; M.  
premier; M. Barthou, for-  
mer justice; M. Fabre, the  
actor, and M. Bidault d'Issle,  
of the court of appeals, who  
adjournment of the Rochette

Impression in political cir-  
cles. M. Monis will resign his post,  
temporarily. The "Fabre letter,"  
read in the chamber yesterday  
Barthou, set forth that the  
pressure had been exerted by  
then premier, on M. Fabre, to  
Rochette trial for six months.

He had asked for an in-  
terview.

For Resignation.

A reason for M. Monis's tem-  
porary resignation, for it has been  
that an embarrassing situa-  
tion presented by the confronta-  
tion, a member of the gov-

ernment, with M. Fabre, a subordinate of-  
ficial. He may resume office at the con-  
clusion of the investigation.

A similar expedient was adopted in the  
somewhat similar case of Leon Bourgeois,  
minister of justice, who was called  
upon to give evidence in legal proceedings  
at the time of the Panama canal.

It is understood that the senate com-  
mittee is opposed to according full judi-  
cial powers to the investigating com-  
mittee, as provided by the resolution of the  
chamber. It will, however, authorize the  
taking of evidence under oath.

M. Caillaux again visited St. Lazare  
prison today and had a talk with his wife.

Troops Posted in Streets.

The appearance of armed detachments  
of republican guards posted at strategic  
points of Paris early today added to the  
tense excitement aroused among the vari-  
ous political factions by the killing of  
Calmette. At every point where there was  
likelihood of trouble the police were sup-  
ported by soldiers.

The offices of the Figaro, the chamber  
of deputies, the residence of M. Caillaux  
and the Saint Lazare prison, where Mme.  
Caillaux has occupied a cell since she  
killed the editor, to clear her husband's  
name, she said, were magnets which at-  
tracted the police today.

In the southern part of Paris, in the  
Latin quarter and in the working quar-  
ters, where it is only necessary for a tur-  
bulent individual to strike with a "can-  
on" or "Assassin" to be joined by a do-  
zen, the police kept a close watch.

Several times they cleared away  
silly groups, which reassembled as soon  
as the police had passed.

Woman Becomes Heroine.

Mme. Caillaux seems today to have  
become a heroine amid all the turmoil.

Among the crowds of excited, gesticulat-  
ing people, her name is heard constantly.

She is talked of as the victim of her love  
for M. Caillaux, and as the instrument in  
committing the crime, which has robbed  
the press of a prominent writer and the  
French cabinet of its leading spirit.

The crowds have adopted as their own the as-  
sertion of Deputy Delahaye, in the cham-  
ber last night that "cabinet ministers  
nowadays send their wives to kill those  
obstructing their path."

The excitement among the populace is  
worked on by the many yellow newspa-  
pers among the 135 daily publications of  
Paris. These exaggerate, invent and hint  
at things, and the paper vendors yell the  
insinuations among the crowd, exciting  
the people still further.

Mme. Caillaux meanwhile sleeps on a  
narrow iron bedstead in the prison of  
Saint Lazare. Her hitherto remarkably  
calm attitude was today said to be break-  
ing down under the torture of being  
always under observation.

Nuns Stay in Cell.

She is never for a moment left alone.

Relays of nuns, two at a time, sit in  
the small cell with her, whether she is  
sleeping or waking. Besides these con-  
stant companions, prison wardens, who  
constantly looked into the cell through the  
finely meshed wire partition in order to  
ascertain that no breach of the prison regu-  
lations is committed.

Twenty University of Paris students,  
belonging to a revolutionary group, began  
to chant in one of the lecture rooms to-  
day, "Vive Caillaux," whereupon the  
other students attacked them. The Caillaux  
adherents were armed with stout  
canees and fought desperately, but they  
were finally overpowered and thrown into  
the street.

Numerous incidents in which the police  
were forced to intervene occurred today  
in the university quarter of the city.  
There was much disorder in the class-  
rooms.

Political friends of Joseph Caillaux,  
the finance minister, who resigned from  
office yesterday as a sequel to the assas-  
sination of Gaston Calmette by Mrs. Caillaux,  
are coming strongly to his support.  
The Radical-Socialist and Radical-Repub-  
lican groups in the chamber of deputies,  
comprising about 120 members, held a  
meeting today at which they adopted  
unanimously the following resolution:  
"We protest against the violent cam-  
paign of calumny against M. Caillaux,  
the defender of France's fiscal reforms,  
and we express to him our deep sympathy  
and affectionate confidence."

Turmoil at Versailles.

VERSAILLES, France, March 18.—Police  
detachments dispersed with great  
difficulty today a crowd of several hun-  
dred students who paraded the streets  
demonstrating against Deputy Amadee E.  
Thiatmann, who had written a letter of  
congratulation to Mme. Caillaux for kill-  
ing Gaston Calmette.

The students gathered in front of the  
deputy's residence, shouting, "Assas-  
sin!" and cheering for Calmette.

FUNERAL WILL OCCUR  
IN CHICAGO FRIDAY

CHICAGO, March 18.—Mrs. Adeline  
Dutton Kent, mother of Congressman  
William Kent of California, who died  
suddenly in Ogden, Utah, Monday, will  
be buried here Friday. It was announced  
today. Mrs. Kent was 75 years old. She  
died in the work of the sanitary re-  
lief corps during the civil war. She was  
a pioneer citizen of Chicago, and was  
known for her philanthropic work during  
her residence here.

Mr. Kent was on his way from her home  
at Kentfield, Cal., to visit Representative  
Kent in Washington when she was strick-  
en with heart failure.

COMMISSION HALTS  
PROPOSED INCREASE

WASHINGTON, March 18.—A proposed  
increase of 25 cents a hundred pounds in  
the freight rate on corn flour and buck-  
wheat flour from middle-western points  
to Pacific coast terminals, coupled with  
a proposed reduction from 50¢ to 30¢  
pounds in the minimum weight of a car-  
load, induced the interstate commerce  
commission today to suspend until Fri-  
day 15 tariffs filed by the transcontinental  
railways which would increase the rate  
from 65 to 90 cents a hundred pounds.  
The reduction of the minimum weight  
would further increase the charges to  
shippers.

EAT LESS MEAT  
IF BACK HURTS

Take a glass of Salts to flush  
kidneys if bladder  
bothers you.

Eating meat regularly eventually  
produces kidney trouble in some form  
or other, says a well-known authority,  
because the uric acid in meat excites  
the kidneys, they become overworked,  
and get sluggish; clog up and cause all  
sorts of distress, particularly back-  
ache and misery in the kidney region;  
rheumatic twinges, severe headaches,  
acid stomach, constipation, torpid liver,  
sleeplessness, bladder and urinary irri-  
tation.

The moment your back hurts or kid-  
neys aren't acting right, or if bladder  
bothers you, get about four ounces of  
E. J. Salts from any good pharmacy;  
take a tablespoonful in a glass of water  
before breakfast for a few days and your  
kidneys will then act fine. This  
famous salts is made from the acid of  
grapes and lemon juice, combined with  
lithia, and has been used for genera-  
tions to flush clogged kidneys and  
stimulate them to normal activity; also  
to neutralize the acids in the urine so  
it no longer irritates, thus ending  
bladder disorders.

Bad Salts cannot injure anyone;  
makes a delightful effervescent lithia-  
water drink which millions of men and  
women take now and then to keep the  
kidneys and urinary organs clean, thus  
avoiding serious kidney disease.

POWDER EXPLOSION  
CAUSES MUCH ALARM

Plant of the Equitable Com-  
pany at Alton, Ill., Blows  
Up; One Man Missing.

ST. LOUIS, March 18.—An explo-  
sion at the Equitable Powder company's  
plant at Alton, Ill., near here, tonight  
shook territory in Illinois within a dis-  
tance of 100 miles. The effect of the  
explosion, however, did not cross the  
Mississippi river into Missouri.

Henry Miller, night watchman at the  
plant and the only man known to have  
been within a mile of the mill at the  
time of the explosion, is believed to  
have been killed, as no trace of him  
could be found.

Soon after the explosion reports of  
earthquake shocks began coming in  
from Decatur, Assumption, Orleans and  
Centralia, Ill.

In most of these places two shocks  
were felt. At Centralia, more than  
fifty miles from the scene of the ex-  
plosion, doors and windows rattled for  
five seconds and in some instances were  
broken.

At 9:30 o'clock tonight a dense  
smoke carrying a strong odor of burn-  
ing gunpowder settled over this city,  
thirty miles from the scene of the ex-  
plosion. It had taken place diagonally  
across the river from Alton to St. Louis.  
The smoke created much excitement among  
the theater-going crowds down town, as  
they were unaware of its cause. Re-  
calling the Missouri Athletic club dis-  
aster and numerous other big midnight  
fires which have occurred in St. Louis  
during the last few weeks, people  
rushed from one street to another in  
search of what was thought to be a  
new fire. The smoke covered the city  
for about fifteen minutes and then  
passed southward.

The explosion left only a deep hole  
in the ground on the spot where the  
building stood. Nine tons of black  
powder exploded in one blast, at a cost  
to the company of more than \$20,000,  
including the loss of the building.

The shock wrecked buildings in Alton  
and broke every plate glass door and  
window in East Alton in one house. The  
kitchen stove was overturned and the  
house set afire.

LINCOLN RELICS ARE  
LEFT TO ART MUSEUM

NEW YORK, March 18.—A bloodstained  
lock of Abraham Lincoln's hair and a  
number of relics and mementos intimately  
related to the history of the United  
States were offered the Metropolitan mu-  
seum of art in the will of the late General  
James Grant Wilson, filed for probate to-  
day.

Among the bequests is a ring which con-  
tains hair of Washington, Wellington, Na-  
poléon, Grant and Lincoln.

To his widow, Mrs. Mary H. Wilson,  
the testator bequeathed the remainder of  
his property and copyrights.

The total value of the estate is not given,  
but it is estimated that the late Gen-  
eral Wilson's estate was worth \$1,000,000.  
General Wilson explains that he made  
no public bequests of money "be-  
cause this meant, in the eyes of the  
public, a great deal of it has been con-  
signed by the Buenos Aires frigorificos  
of the Chicago slaughter and packing  
companies, to themselves at New York for  
sale by themselves in New York or where-  
ever they please to send it by rail."

According to the bulletin, 9,000,000  
pounds of Argentine beef are being im-  
ported into the United States monthly. It  
is shown that in October, the United  
States received 2,069,794 pounds. In No-  
vember, 3,985,898; in December, 3,448,  
498 pounds, and in January, 8,335,797  
pounds.

day.

BE PRETTY! TURN  
GRAY HAIR DARK

Try Grandmother's old Favorite  
Recipe of Sage Tea and  
Sulphur.

Almost everyone knows that Sage  
Tea and Sulphur, properly compounded,  
brings back the natural color and lus-  
ter to the hair when faded, streaked  
or gray; also ends dandruff, itching  
scalp and itching falling hair. Years  
ago the only way to get this mixture  
was to make it at home, which is  
mussy and troublesome. Nowadays, by  
asking any drug store for "Wyeth's  
Sage and Sulphur Hair Remedy," you  
will get a large bottle of this famous  
old recipe for about 50 cents.

Don't stay gray! Try it! No one  
can possibly tell that you darkened  
your hair, as it does it so naturally  
and evenly. You dampen a sponge or  
soft brush with it and draw this  
through your hair, taking one small  
strand at a time; by morning the gray  
hair disappears, and after another ap-  
plication or two your hair becomes  
beautifully dark, thick and glossy.

ARGENTINE ADDS TO  
U. S. BEEF SUPPLY

Business Largely Controlled  
by Chicago Packers; Little  
Effect on Prices.

WASHINGTON, March 18.—How Ar-  
gentine's beef industry, which imports  
millions of pounds of meat into the United  
States monthly under the new tariff  
law, is dominated by Chicago slaughter-  
ing and packing companies which "do  
by far the major portion of the entire  
business," is described in a "farmers'  
bulletin" issued today by the department  
of agriculture.

That Argentine beef has caused a re-  
duction in the prices of most of the  
United States has been generally sup-  
posed, but the department's bulletin re-  
marks that "it is not assumed that the  
American-controlled companies in Argen-  
tine are using Argentine beef" to beat  
down the prices of Chicago beef.

At the present time, the bulletin says,  
there are nine establishments for slaugh-  
tering, chilling or freezing and exporting  
beef, located in or near Buenos Aires,  
and five of these companies are owned or  
operated by Chicago houses.

In the summarized conclusions of the  
bulletin it is shown that imported Argen-  
tine beef adds to the national supply  
of the United States, at the present  
rate, a little over 1 per cent. "While some  
of this meat," the bulletin adds, "has  
come from British frigorificos at Buenos  
Aires, a great deal of it has been con-  
signed by the Buenos Aires frigorificos  
of the Chicago slaughter and packing  
companies, to themselves at New York for  
sale by themselves in New York or where-

IN SUCH PAIN

Suffered Everything Until Re-

E. Pinkham's Vegeta-

Florence, So. Dakota.—"I used to be  
very sick every month with bearing  
down pains and backache, and had  
headache a good deal of the time and  
very little appetite. The pains were so  
bad that I used to sit right down on the  
floor and cry, because it hurt me so  
and I could not do any work at those  
times. An old woman  
advised me to try Lydia E. Pinkham's  
Vegetable Compound and I got a bottle.  
I felt better the next month so I took  
three more bottles of it and got well so  
I could work all the time. I hope every  
woman who suffers like I did will try  
Lydia E. Pinkham's Vegetable Compound."

—Mrs. P. W. LANSING,  
Route No. 1, Florence, South Dakota.

Why will women continue to suffer day  
in and day out or drag out a sickly, half-  
hearted existence, missing three-fourths  
of the joy of living, when they can find  
health in Lydia E. Pinkham's Vegetable  
Compound?

For thirty years it has been the stand-  
ard remedy for female ills, and has re-  
stored the health of thousands of women  
who have been troubled with such ail-  
ments as displacements, inflammation,  
ulceration, tumors, irregularities, etc.
